

Report on One-Day Cleanliness Drive Held on 17th August 2024

Introduction:

On 17th August 2024, a one-day cleanliness drive was organized on the college campus by the students of the Eco-Club, NCC (National Cadet Corps), NSS (National Service Scheme), and the R&R (Rovers & Rangers) student groups.

The event commenced at 11:40 AM with the aim of improving the campus environment and raising awareness about the importance of maintaining cleanliness in public spaces. The focus of the drive was on picking waste materials and uprooting Congress grass (*Parthenium hysterophorus*), a harmful weed known for its adverse effects on health and biodiversity.

Activities Undertaken:

The drive began with a brief orientation about the dangers of Congress grass and the proper techniques for its removal. Armed with gloves and other tools, the students enthusiastically participated in the activity, primarily focusing on the backyard of the campus, where the weed was most prevalent.

Student Participation:

A total of 87 students from Eco-club, NCC, NSS and R&R joined the drive. Their collective efforts led to the successful uprooting of a significant amount of Congress grass, thereby contributing to the betterment of the campus environment.

Refreshments:

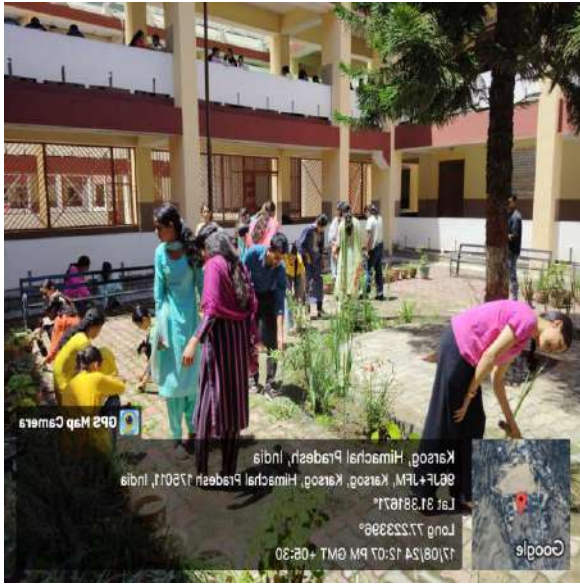

After the drive, refreshments were provided to all the participating students in the college canteen. This served as a moment of relaxation, allowing the students to reflect on the importance of their contributions to maintaining a clean and healthy campus.

Conclusion:

The cleanliness drive was a resounding success, thanks to the active participation and enthusiasm of the students. The collection and disposal of waste material and removal of Congress grass not only improved the aesthetic appeal of the campus but also reduced the potential health risks associated with this invasive weed. The event concluded with a collective sense of accomplishment, reinforcing the importance of such initiatives in the future.
