About the College: About the College: The college is affiliated with Sardar Patel University, Mandi, (HP). It is making rapid efforts to nurture the students and provide them with holistic education. Besides, the postgraduate courses in English, Hindi, Political Science, various undergraduate courses are being run under the streams of Science, Humanities and Commerce under the Choice Based Credit system (CBCS). The students are given a choice to opt for various subjects in Humanities like English, Hindi, Sanskrit, History, Political Science, Economics, Sociology, Public Administration, Music (I), Music (V) and Geography. The students of Science can opt for a B.Sc. in Life Science with the subjects- Botany, Zoology and Chemistry and B.Sc. in Physical Sciences with Physics, Chemistry, Computer Science, and Mathematics as options. The Faculty of Commerce offers various courses in B. Com. Degree. The college is committed to qualitative, value-based and progressive education. The emphasis is laid upon grooming a wholesome personality. The work culture of the college is in consonance with the vision and the mission statements. The college is progressing every year towards newer heights.

About the FDP: In the rapidly evolving landscape of education, the integration of technology has become imperative for keeping pace with the needs of a digitally native generation. One of the most transformative technologies in this regard is Artificial Intelligence (AI). Faculty Development Programs (FDP) on the use of AI in education have emerged as crucial initiatives to equip educators with the knowledge and skills to harness the potential of AI for enhancing teaching and learning. Faculty Development Programs focusing on the use of AI in education are indispensable for preparing educators to navigate the technology-driven future of learning. By equipping educators with the knowledge and skills to harness AI's potential, we can ensure that education remains relevant, effective, and engaging for the next generation of learners. These programs must be designed to address the unique needs and challenges of individual educational institutions and the educators they serve, enabling a successful integration of AI into the educational landscape.

Please note

- **Certificate of participation provided + Interaction with Resource person during the sessions**
- **Session recording not provided**

Schedule of the FDP: (8:00pm to 9:00pm)

Date & Day	Topics
23 Dec'24, Monday	Artificial Intelligence and Teaching Learning
24 Dec'24, Tuesday	Pedagogies with AI Support
25 Dec'24, Wednesday	AI Tools for Education Planning and preparation
26 Dec'24, Thursday	AI Tools for Assessment and Grading
27 Dec'24, Friday	AI Tools for Rubrics and Applications
28 Dec'24, Saturday	Effective Teaching with Digital Education

Outcomes: Following are the outcomes of this FDP

1. Participants will gain a foundational understanding of artificial intelligence, including its history, key concepts, and terminologies.
2. Educators will be familiarized with current trends and practical applications of AI in the educational sector, supported by case studies and real-world examples.
3. Attendees will acquire basic skills in how they can apply AI in education via the educational tools and platforms.
4. Educators will explore how AI can personalize learning experiences and improve assessment methods, leading to more effective and individualized student support.
5. The program will increase participants' awareness of the ethical and social implications of AI in education, ensuring they are equipped to use AI responsibly and fairly in their teaching practices.
